

Dear Business Executive,

Whether yours is a new expanding small business or a well established small or medium business, you share a common growing concern with many businesses today. Your need for cost effective and reliable information technology (IT) support services is increasing and your internal resources can't either keep up or are better used for your business specific functions rather than routine support issues. We think we can help with our newly deployed, tried, tested, and verified M-MIS[®] Managed IT Services starting at just under \$10 and designed for your business.

M-MIS Offers:

- 24X7X365 Remote Monitoring
- Desktop and Server Management
- Key Server System Software Monitoring
- Internal and External Debris Removal
- Continuous Virus Detection and Removal
- Continuous Spyware Detection and Removal
- Software Patch and Service Pack Management
- Monitoring of Network Devices and Printers
- Proactive Remote Administration
- Remote Support and Resolution
- Accountability of Your IT Infrastructure
- Management Reporting

Benefits of M-MIS

- Predictable Cost Effective Protection
- No Equipment to Buy or Lease
- Utilize your IT staff more Efficiently
- Increases Your Staff and Business Productivity
- Reduced rate for consulting and repair services
- Higher Reliability of Your IT Investment
- Focus more on your Business not your technology
- No long time contracts to sign - month to month
- Blended threats protection software at no cost

Sign up now and receive anti-virus, anti-spam, and anti-adware software at no cost. This valuable package will protect your entire network from internal and external blended threats and you will never have to pay for the usual annual renewal. Enclosed is additional information for your review. I urge you to contact us now for more details or to sign up. You can reach us by phone at (909)985-7240 or by email at support@microcontrolsintl.com. *Prevention is better than cure, act now.*

Sincerely,

Alexander Osifeso, M.B.A.
Technology Officer
